EDUCATION

Carnegie Mellon University	Master of Science: Data Analytics for Science Relevant Course Work: Large Scale Computing, Statistical Analysis and Machine Learning, Natural Language Processing, Deep Learning GPA: 4.06/4.33	May 2024
University of California, Los Angeles	Bachelor of Science: Statistics and Data Science Relevant Course Work: Theory of Interest Application, Statistical Models and Data Mining, Bayesian Statistics, Time Series Analysis Major GPA: 3.60/4.00 Overall GPA: 3.47/4.00	June 2023

SKILLS

Programming Languages: Python, R, SQL, C++, Excel

Big Data & Machine Learning: Spark, Azure Synapse Analytics, Python (eg. scikit-learn, PyTorch, TensorFlow, pandas, matplotlib)

Data Science & Miscellaneous Technologies: AWS, ETL, Time series, Experimental design, Toad Data Point, PowerBI, Azure ADF

WORK EXPERIENCE

Ferveret Inc. – Data Science Intern; (Remote) San Jose, CA	September 2024 – Present
- Conducted energy efficiency analysis in TensorFlow Decision Forests across 50+ data centers, leading to a 10% reduction in costs and a 15% improvement in operational performance - Collaborated with cross-functional teams to develop actionable insights and bespoke data-driven reports using Python (pandas, scikit-learn) and SQL, enhancing decision-making processes and providing clear recommendations to senior leadership	
PricewaterhouseCoopers LLC – Deals Consulting Intern; San Francisco, CA	June 2024 – August 2024
- Utilized Azure cloud services and SQL to implement machine learning solutions that reduced ETL processing time by 20%, delivering strategic BI reports and visualizations to streamline decision-making for 50+ stakeholders - Contributed developing a firm-wide workforce scenario planner, Workforce Architect, using Python, enabling senior management to make data-driven decisions around workforce optimization and growth initiatives	
Ansys, Inc. – Data Scientist, Capstone Project; Pittsburgh, PA	January 2024 – May 2024
- Designed RNN model using PyTorch to optimize cloud computing memory consumption, reducing simulation time by 30% and cutting operational costs by 20%, supporting healthcare clients in optimizing cloud resources for their AI/ML needs - Analyzed and visualized computational and financial trade-offs between cost and accuracy in a data pipeline, leveraging Bridges-2's remote computing environment to optimize the use of public cloud services for high-performance computing tasks	
University of California, Los Angeles – Undergraduate Researcher; Los Angeles, CA	September 2022 – July 2023
- Implemented Time Series Analysis for stock prediction (NVDA) using LSTM model in Python under supervision of Dr. Tsiang - Proposed multiple non-stationary/stationary data from "astsa" package in R using ARIMA model to measure past and future events	

LEADERSHIP & ACTIVITIES

Carnegie Mellon University, School of Computer Science – Graduate Teaching Assistant	January 2024 – June 2024
- Facilitated "Communications for Software Leaders II" course, honing students' interpersonal skills critical for the tech industry - Managed class environment by cultivating an environment conducive to learning complex concepts in software leadership	
Google Developers Student Club – Chief Financial Officer	August 2023 – June 2024
- Collaborated with 10 officers to prepare workshops for student engagement events, including HackCMU and Solution Challenge - Pitched student organization to 2023 Innovation Summit, assisting firms through the lens of AI, Design-Thinking, and Data	
University of California, Los Angeles, Hockey Team – Team Athlete	September 2021 – June 2023
<i>Part of American Collegiate Hockey Association at Division II level</i> - Trained for 20 hours/week to participate in 3 competitions throughout 7 quarters, enhancing team cohesiveness - Exhibited outstanding teamwork and proved strong work ethic by promoting camaraderie during trainings, meetings, and games	
U-18 National Ice Hockey Team, South Korea – Assistant Captain, Team Athlete	January 2018 – January 2019
<i>Part of International Ice Hockey Federation Division II, Group A</i> - Trained for 52 hours/week to participate in 2018 IIHF U18 World Championship in Tallinn, Estonia, leading the team as captain - Cooperated with Korean Sport & Olympic Committee to train in Jincheon National Training Center, first time as U18 hockey team	

HONORS

Dean's Honors List (<i>UCLA Winter 2022, Winter 2023, De Anza All quarters 2019 - 2021</i>)	June 2023
Ranked 2 nd in West Coast Hockey Conference ACHA II Men's Ice Hockey league	February 2023
Ranked 6 th in Western Region ACHA II Men's Ice Hockey league	March 2022
Ranked 4 th in 2018 IIHF Ice Hockey U18 World Championship Division II, Group A	March 2018
